

2023 Autumn Cover Crop

Cover Crop Grant Program

This Fall, Skagit County and Skagit CD are teaming up to provide grants to help farmers offset the cost of cover crop seed. Cover crops are a great way to recycle nitrogen, improve soil, reduce erosion, improve water quality, and maintain living roots and the soil biotic community. If you are thinking about trying cover crops, consider applying for a grant with us!

Enrollment Eligibility

- First-come, first served
- No acreage min or max
- Seed cost reimbursed
- Planted by Oct 31st
- Terminated by June 1st
- Excludes cash crops
